

As a volunteer of the Warm the Children program, I am sincerely upset over Governor Malloy's proposed elimination of the sales tax exemption. The number of people that would be affected by this budget change are the ones that so dearly need assistance from our government: the frail elderly, developmentally disabled, mentally ill, low income residents, single mothers – and our Warm the Children program which would remove more than 40 needy children from the program if this bill is passed.

Please use the influence of your offices to maintain the sales tax exemption for non-profit organizations. Its' passing would have a serious impact on the most vulnerable members of our society.
